

James Street Steel believes it has an important duty to ensure good environmental performance in all its business operations. The senior management firmly believes in, and is committed to monitoring and improving environmental performance, pollution prevention and environmental protection. This is accomplished, through leadership, continual improvement, employee development, recognition and social responsibility. The scope of the certification includes all activities relating to the company and is summarised as follows:

Processing of steel reinforcement to BS 8666 and BS 4466.

Stocking and distribution of BS 4449, BS 4482, and BS 4483

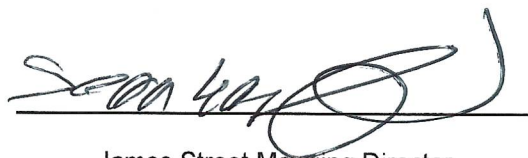

To assist in achieving this objective, we operate an Environmental Management System, which, as a minimum, meets the requirements of ISO 14001:2015 and is harmonised with ISO 9001:2015. EMS Objectives reviews are conducted by Senior Management at least annually.

The Senior Management Team and staff of James Street commit to:

- i.** Utilising the best available environmental controls and systems to achieve a high standard of environmental control throughout our operation and to prevent pollution.
- ii.** Achieving environmental excellence in every aspect of our business through continuous improvement and improving the efficiency of our operations to minimise resource and materials consumption and waste and emissions generation.
- iii.** Achieving environmental excellence in every aspect of our business through continuous improvement and improving the efficiency of our operations to minimise resource and materials consumption and waste and emissions generation.
- iv.** We are committed to minimising the environmental impact of our operations on our employees, contractors, and neighbours.
- v.** Conducting operations in accordance with all applicable legislation, compliance requirements and regulations and any other relevant requirements and to implement systems, programmes and procedures to achieve compliance.
- vi.** Working with suppliers and contractors to promote awareness of the importance of environmental issues and the need to work in an environmentally responsible manner.

James Street Steel conducts its business with care and respect for the environment and requires all employees to carry out their work-related activities in accordance with this policy. The Environmental Policy Statement is displayed in all appropriate areas of the Company.
